of the Dominion of Canada.

Local Happenings

Dont be a slacker—

Buy Bonds - Or BUST

Roy Poynter was a visitor in town this week.

Messrs. L. Hayes, J. Osborne and Fred Eye left for Seattle to day at which place they expect to spend the winter.

We are glad to report that little Helen Bell, whose hands were so badly frozen last week, is now much better. It is thought that amputation will not have to be resorted to.

J. Cook left for St. Paul, U. S. A. on Monday last, at which place he will re-join his family. Mr. and Mrs. Cook expect to spend the winter in St. Paul, and to return next spring.

Miss Doris Hayes left to-day for Stettler on a months holiday.

The Women's Auxiliary meets at the home of Mrs. A. J. Deadmarsh on Thursday next. All interested are invited to attend.

On Friday last the funeral of the late Mrs. Carrie Johnson took place at the Lutheran Cemetery, south of Monitor. A large assembly of friends and relatives gathered to pay their last respects to the departed, and to express sympathy with the bereaved husband, Mr. Halvor Johnson. The Rev. W. S. Wickenden officiated at the graveside.

* Now that you have got the old heater going for the winter months, it might be well to see Warner about writing that Fire Insurance for you.

Wedding Bells

KELTS-HOUSTON.

On Monday, November 3rd, at the home of the bride, S.W. of Consort, the Rev. W. S. Wickenden officiated at the marriage of Mr. M. A. Kelts and Miss E. A. Houston.

SHANNON-PERRY

On Wednesday, Nov. 5th, at Teteran, the Rev. Wickenden of Monitor united in Holy Matrimony Mr. R. J. Shannon and Miss E. Perry.

Mr. and Mrs. W. Bell wish to take this opportunity of thanking Mr. and Mrs. Roy Baxter, whose timely aid in the recent accident to Helen Bell prevented the necessity of amputating the little ones hands.

Additional locals every page

The burning question is how to make a little feed go a long way. Several farmers have found that a little Cattle Specific sprinkled in or on the feed helps out wonderfully. It is a great milk producer or cattle fattener. Get it at your local Drug Store—we handle Calf meal, a little stock food will do your horses and colts good. Poultry food that will make your hens lay, in fact, everything for the stock.

We have only the best in Chocolates, Flavoring extracts, Fountain Pens, School Supplies, Fancy and plain Stationery (some of our local printers work).

Dont forget to this Xmas. We will have a big line of Christmas Goods, everything in toys, and the prices will be reasonable.

Education in New World Era

The world upheaval occasioned by the Great War is having its effects not only upon politics and political institutions, finance, trade and commerce, and economics in general, but also upon all social and moral relations. While the great struggle was in progress, and the need for bringing every ounce of power and every item of resource to bear to achieve victory became more and more evident, people began to say that the old world would never again be the same. This, in fact, became a trite saying, and many who made use of it hardly realized just how true it was and how great was the revolution taking place in the world, and which was affecting every phase of individual, community, national and international life.

Remarkable and far-reaching as have been the changes brought about in political life and institutions—and here in Canada we are only now beginning to realize just how great the change has been, and just beginning to get a glimpse of other and perhaps greater changes which seem impending—in finance, trade and commerce, in science and invention, the greatest change of all has taken place in the sphere of social conditions. The insistent demands of Labor for a new place in the social order; the almost world-wide sweep of the movement against the perpetuation of the legalized liquor traffic; the insistence upon greater attention being paid to the health and physical well-being of the people, more especially of the boys and girls—the need for which was so startlingly exposed by the examinations conducted by the army doctors in connection with the recruiting of the immense armies which modern war called for—these things are even more significant of the new era upon which the world has entered—than are those which have to do with what in the past we have been taught to regard as the more material things.

And in the laying of the foundation for, and in the development of, this new social order, the most thoughtful men and women have come to recognize that no one institution will be called upon to play a larger or more important part than the public schools and higher institutions of learning throughout this and all other lands. In every progressive country today, education is receiving the serious attention of the most public-spirited and far-seeing statesmen and leaders in public life.

In Great Britain it has found expression in the most sweeping educational reforms of the last half century or more, and the appropriation of positively staggering sums of

money, even at a time when the Old Land is faced with a tremendous national debt and taxation has reached heights hitherto undreamed of.

In Canada a general awakening in regard to matters educational is in evidence in almost every Province, and is most noticeable of all in the Provinces of the West and in old Quebec. The change which is taking place in the latter Province is, perhaps, most significant of all, and has in it all the elements that may yet lead to a closer union between Quebec and the other Provinces and help to eliminate those causes of friction which in the past have so greatly retarded our national life.

One of the most promising movements so far as Canada is concerned was the convening of the recent National Conference on Character Education in Relation to Canadian Citizenship, which was held at Winnipeg October 20-22, and which was attended by representative men and women in all walks of life from every Province of the Dominion, and at which inspiring and instructive addresses were delivered, not only by prominent Canadians, but by leaders of thought from the United States and Great Britain.

So important does the writer of this column consider this great National Conference to have been at this stage in Canada's history, that he proposes to devote some space to its deliberations in future articles.

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

In Russia, certain peasant costumes are trimmed with the skins of the turbot, and in Egypt men wear sandals made from the skins of fish caught in the Red Sea.

Drives Asthma Before it.—The smoke of vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance to linger. It eradicates the cause. Our experience with the relief-giving remedy shows how actual and positive is the succor it gives. It is the result of long study and experiment, and was not submitted to the public until its makers knew it would do its work well.

At Swedish weddings, among the middle and lower classes, the bridegroom carries a whip. This is an emblem of his authority in the domestic circle.

Keeps Baby's Skin Healthy

IF every mother could only realize the danger which lurks in the neglect of chafing and skin irritations she would not take chances on being without Dr. Chase's Ointment to apply after baby's bath.

It arrests the development of eczema and makes the skin soft, smooth and velvety.

90 cents a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

Dr. Chase's Ointment

For Soldier Settlers

School Lands in Manitoba and Saskatchewan Withheld From Sale

Through the intervention of the Soldier Settlement board, school lands in Manitoba and Saskatchewan aggregating 432,000 acres, have been withheld from sale by auction in order to be made available for settlement by returned soldiers. Arrangements have been completed to advertise these lands, 2,700 quarter sections in all, for sale by public auction this fall. The lands are situated in the Winnipeg, Brandon, Ashern and St. Rose de Lac districts in Manitoba, and the Canora, Wadena, Prince Albert and Wakaw districts in Saskatchewan. They were selected because of the fact that in these districts crops this year were good and increased settlement is particularly desirable. The provincial governments concurred in the sale.

NOTHING TO EQUAL BABY'S OWN TABLETS

Mrs. Alfred Naud, Natsagan River, Que., writes:—"I do not think there is any other medicine to equal Baby's Own Tablets for little ones. I have used them for my baby and would use nothing else." What Mrs. Naud says thousands of other mothers say. They have found by trial that the Tablets always do just what is claimed for them. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus banish indigestion, constipation, colic, colds, etc. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

New things to eat are being discovered daily—seemingly for the purpose of adding to the high cost of living.

Minard's Liniment Cures Distemper.

The total annual earnings of the express companies operating in Canada are seventeen million dollars. The net earnings are about nine hundred thousand dollars.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Exterminator.

It is but natural that a man should get hot when others "roast" him.

A little gaying judiciously administered often makes a weak man strong.

En Route From Siberia

Seven Hundred British Soldiers Due to Reach Vancouver Nov. 11.

Seven hundred British Soldiers now on the sea eastbound from Vladivostok on the C.P.O.S. Ss. Montague will arrive in Vancouver on Armistice day, Nov. 11, and will be entertained during their brief stay by the Great War Veterans, the Imperial Veterans and the Ladies' Auxiliary of the Army and Navy.

These troops include men from several famous British regiments. They are all volunteers and have served for four and a half years. There are First Warwicks, Manchester, Gordon Highlanders and Durhams in the party. They will be in Montreal en route to England about Nov. 17.

Minard's Liniment Co., Limited. Gentlemen—I have used MINARD'S LINIMENT on my vessel and in my family for years, and for the every day ills and accidents of life I consider it has no equal. I would not start on a voyage without it if it cost a dollar a bottle. CAPT. F. R. DESJARDIN. Schr. "Stork," St. Andre, Kamouraska.

Some people while on earth try to live on the interest of their imaginary treasures in heaven.

Minard's Liniment Cures Garget in Cows.

Work will bring success—and the more folks you have working for you the more success you will achieve.

Corns cannot exist when Holloway's Corn Cure is applied to them, because it goes to the root and kills the growth.

A woman who attempts to cook according to her husband's idea is apt to make a mess of it.

There's Nothing Like

Zam-Buk's soothing and healing power. "Zam-Buk has been our household balm for fourteen years, and we could not do without it," says Mr. George A. Kilburn of Swan Lake, Man.

For eczema and skin troubles of all kinds Zam-Buk has no equal, also for old sores, ulcers, abscesses, boils, pimples, blood-poisoning, piles, cuts, burns, bruises and scalds. All dealers or Zam-Buk Co., Toronto. 50c box, 3 for \$1.25.

Zam-Buk

Danger—Colds

and more serious complaints are contracted in many weather. Be protected. Take

GRAY'S SYRUP OF RED SPRUCE GUM

from the first sniffle or sneeze. Stop it in time and do not gamble with your health. Used over 40 years in treating coughs, colds and all related complaints. Everybody buys the Large Size. Montreal D. WATSON & CO., New York

Pumpernickel is the rye bread used by the Westphalian peasants, which in some other parts of Germany is regarded as a great delicacy. The loaves are sometimes 60 pounds in weight.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" stamped on tablets positively identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoclonalacetic Acid of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Ask Your Druggist

For Dr. Miles' Calendar For 1920

IT is FREE and the best large-figure Calendar published. It gives the weather forecast for each day in the year, also time of Sunrise and Sunset and phases of the Moon. "An exceptionally complete and useful Calendar!" That's what everybody says. The edition is limited. It is therefore very important that you call early so that you will be sure to get this splendid free Calendar at the beginning of the year.

Just go to your druggist, tell him your name and address, and that you want Dr. Miles' 1920 Calendar. He will do the rest—FREE.

ALERT ALTARIO

The usual festivities marked Halloween in our little burg. A party of young bloods went forth to war and the mischief they did would have given a pointer or two to Macbeth witches. Buggies and sleighs disappeared mysteriously and were discovered next day by their irate owners in distant sloughs and cellars. The storekeepers windows were decorated with soap and many a war whoop was heard as the fun grew fast and furious. The report of a gun added a dramatic climax to the exciting situation as our chinamen dealt out drastic measures to the marauders of his property. Once a year is often enough for the mischief makers to hold revelry and we are now able to live another year in peace at least.

A large party was held at the McLeod home to celebrate Halloween when almost the whole town met to spend a social hour. We hear that everyone had a real good time and enjoyed themselves thoroughly.

The time honored custom of "dookin' for nipples" was observed in one Scotch home in town when the young folks, blindfolded, and with hands behind their backs had lots of fun trying to locate an apple suspended from the ceiling. It is such times as these that make the heart a wee bit homesick for that happy land far o'er the sea where hospitality is the greatest law of the land and where "frions take a cup o' kindness yet for the days o' auld land syne".

In spite of the stormy weather there was a good attendance of Kirrie and Altario folk at Morgan Bogart's Sale. The bidding was brisk punctuated by the usual humor of the good natured auctioneer. Some things were a real bargain such as a good milk cow that sold for \$1.00.

Mr. Halliday entertained the children at School on Friday afternoon to celebrate Halloween and every one reports a good time and votes the teacher a real sport.

FRIDAY NOVEMBER 7 1919

Alberta

Teacher's Convention
Held At Consort

The Annual Convention Inspectorate was held at Consort on Thursday last. Owing to weather conditions prevailing, there were only 22 teachers present, but in spite of this fact the proceedings were a decided success.

A social evening was held at the close of the first days proceedings, and the second evening was to have been also in the form of a social gathering. Owing to the fact, however, that the Minister of Education was unable to be present, the gathering was not held.

Many interesting and instructive matters were discussed and papers given by Inspectors Gray and MacLean were highly appreciated. A Rural School was shown, in operation, and at this convention it was decided to hold the next annual gathering at Monitor. Following are the officers elected for the current year.

Hon. Pres. Minister of Education.
Hon. Vice-Pres. Insp. Gray.
Pres. J. L. West.
Vice Pres. W. Fraser.
Secy/Treas. Miss McFetridge.
Executive. The Misses Dowler, Myer, McMunn & Mr Cameron.

The late lamented Mark Twain told a story of the time when he was editor of the "Virginia City Enterprise". A superstitious subscriber who had never advertised in the publication, one day found a spider in his paper and wrote asking if it was an omen of good or bad luck. In reply the editor wrote: "The finding of spider in your copy of the 'Enterprise' cannot be taken as an omen of either good or bad luck as the spider was only looking over the paper to find out what merchant did not advertise so that it could weave its web above his door with the assurance that it could live in undisturbed happiness ever after".

H. D. Duncan and family who live about 3 1/2 miles north of Monitor are moving to Edmonton to-day, at which place they will spend the winter.

We received a letter from Mr. McCullough this week. He has arrived all right in Hamilton, and is busy seeing the sights of the village. He arrived in time to witness a few baseball games.

The public must necessarily judge food very largely by the eye. Green coloured apples are difficult to sell, even when of fine quality, but a red apple usually brings a good price, even though the actual flavour may be but little better than a turnip. Rice, in order to make it attractive, has to be coated with glucose and powdered talc, by which it gets its fine gloss. Butter must be yellow to please the purchaser and is therefore frequently coloured with a yellow dye. But the public demands wheat flour in as white form as possible and hence it has often been bleached to remove its natural yellow tint. In Bulletin No. 40 "The Use of Coarse Grains for Human Food", which may be had free upon application to the Publication Branch, Department of Agriculture, Ottawa, it is shown that with the advance of civilization and the improving of machinery there has been a tendency to discard the coarse and relatively indigestible substances in our food, with the result that we have reached a stage where most people consume too large a refined material and too little of the necessary coarse and relatively indigestible substances. Lastly, however, people have become alarmed and action has begun against what may be fairly called 'over purification of foods'. The object of the new bulletin is two fold: first to show to farmers generally how they can become more nearly self-sufficient as far as the food supply for themselves and their family is concerned, and second to point out for the benefit of other classes of people some ways of economizing the cost of their food, and at the same time improving the wholesomeness of their diet.

CHURCH NOTICES

CHURCH OF ENGLAND.

REV. W. S. WICKENDEN, B.A., L.T.H.
PASTOR.

The Rev. W. S. Wickenden will conduct Divine Services (DV) on Sunday Nov. 9th at Hillanvale School at 3 p.m. All welcome.

Divine Service as usual on Sunday next in St Laurence Church at 7.30 p.m. Music will include the Benedictus and the anthem "Like as The Hart". The sermon will be the conclusion of the study of the Lords Prayer.

Choir practice is held in the Church every Thursday and Saturday evening at 8 p.m. A hearty invitation is extended by the choir-master for all who will assist in this service.

Bad Breath? Don't Be Offensive Removes the Cause

Follow This Advice and Your
Breath Will Soon Be Sweet
and Pure

The bad part of Bad Breath is the fact that nearly every case shows considerable trouble from indigestion, belching gas, bloating, piles or some form of stomach misery. Oftener than not a pimply face, a sluggish, constipated condition is the true cause of many a man's failure in life.

By aiding digestion and building up the weak muscles of the stomach and bowels, DR. HAMILTON'S PILLS completely overcome constipation and all forms of stomach illness.

"I was terribly run down with stomach trouble that arose through neglected constipation," writes Mrs. P. D. Quigley, from Washburn, P.O. "I simply couldn't half digest my food. I had dreadful headaches, piles, and yellow muddy skin. The effect of DR. HAMILTON'S PILLS was phenomenal. I have gained in weight, have a clear skin, no more headaches, I eat well, sleep well and enjoy my meals."

There is no need to be in failing health when cure is so easy to come by taking Dr. Hamilton's Pills of Mandrake and Butternut. 25c per box, at all dealers. REFUSE A SUBSTITUTE.

Facts About Canada

New Circular From Ottawa Contains
Some Interesting Items

A collection of "fifty compact facts" has recently been circulated by the natural resources branch, department of the interior, Ottawa. Although many of these contain the usual statistical data, to be found in its place in annuals and reference books, and which is more or less uninteresting to the average reader, some of these "compact facts" make one "sit up." They show that Canada is a modern nation, with modern organization and activities suited to the times. Not many people, for instance, know that "The Canadian Air Board, under a minister of the Crown, has been appointed to study the development of aeronautics, to prescribe aerial routes, to construct government aerodromes, to license pilots, and to regulate and control aerial navigation over Canada." And the first practical airplane in the world was built only about a dozen years ago!

The following have been selected from the "fifty facts" as having a present and unique interest to Canadians:

Country and Town.—One-half of Canadians live in towns. The products of farms, forests, mines and fisheries are the output of a population averaging less than one man to the square mile.

Farm Lands.—Of the 179,000,000 acres fit to farm in the 454,000,000 acres of Manitoba, Saskatchewan and Alberta, 26,000,000 are under crop and 25,000,000 under live stock. Settlers are needed for 128,000,000 acres surveyed farm lands, including 25,000,000 still open for homestead entry.

Housing.—Dominion loan (\$25,000,000) for building and land purchase shared in by provinces on these terms: (1) Provincial schemes approved by Dominion government; (2) loans only to municipalities, housing societies and owners of lots for occupancy; (3) maximum loans \$3,000,400; repayable in 20-30 years.

The Land for Seaplanes.—A seaplane can fly from Halifax to Vancouver and descend on a lake or a river within easy reach of supplies at intervals not further apart than 150 miles.

Aeronautics.—The Canadian Air Board under a minister of the Crown has been appointed to study the de-

velopment of aeronautics, to prescribe aerial routes, to construct government aerodromes, to license pilots, and to regulate and control aerial navigation over Canada.

Canada Trade.—1913, balance of trade against Canada, \$300,000,000; 1919, balance of trade in favor of Canada, \$80,000,000. (After deducting the \$250,000,000 export of war material). National debt \$2,000,000,000 (\$235 per head of population).

Coal.—Canada has the only two coal regions on the sea coasts of North America. The bituminous coal of Nova Scotia is estimated to last 700 years; that of Vancouver Island has been successfully operated since 1860.

Alberta coal is estimated to form 15 per cent. of the world's supply. Of the actual reserve, calculated by measurement, more than three billion tons are semi-anthracite of high-carbon bituminous. An economic process of briquetting now within sight, will open the market to the vast mass of lignite.

Oil.—There are indications that "The Basin of the Mackenzie," bounded on the west by the Yukon and on the east by the edge of the Laurentian Plateau, is one of the few oil regions of the world as yet unexploited.

Forests.—Next to Russia and the U.S.A., Canada has the largest forest resources in the world. Care is taken to preserve the timber supply by airplane scouting, wireless telegraphy, portable power pumps, replanting, forest product laboratories, stricter legislation and Dominion and provincial reserves.

Airplane Spruce.—Virgin Sitke spruce is the best known material for airplane construction. In areas of Queen Charlotte Islands it forms 35 per cent. of the timber stand. Nowhere else can it be logged on a commercial basis. In the last year of the war British Columbia supplied material for 30,000 airplanes.

Furs.—In the 420th year since Cabot first took furs from Canada to Henry VII, the value of raw furs exported was \$6,000,000. Canadian fur-farmers now breed silver, black, red and blue foxes; Persian, lamb, raccoon, mink, marten and skunk.

Bison and Buffalo.—The herd of 300,500 wood buffalo or bison still roaming between L. Athabasca and the Rocky Mountains is the last wild herd of the continent. The government herd of plains buffalo in the park at Wainwright, Alta, now numbers 3,500.

Surviving in Arctic Canada only. Herds number 25,000; supply wool, milk and beef; graze in open all year, need no hay or barns; do not run away; suitable feeding grounds one million square miles.

New British Gun

Weapon Considered Best of Its Kind
In the World

Experiments which have been taking place in connection with a new British field gun have now resulted in the solution of a weapon which is considered to be the best of its kind in the world.

The advantages of the new gun are that it will fire the heavy 18 1/2-lb. shell used in the ordinary quick-firer a further distance and with greater rapidity than has ever been attained with a field-gun before.

In fact the new gun increases the range of the British normal field gun by at least 3,000 yards, and it is expected that further development will extend the vulnerable point by another 1,000 yards.

Experiments have shown that the new gun can discharge as many as 28 rounds a minute.

One of the difficulties at first experienced was that, although the increased distance could be attained with comparative ease, accuracy could not be wholly relied upon at the lengthened range, and although the gun was used on a limited scale during the closing stages of the war, its far-reaching effects were not utilized to their full extent for this reason.

The vibration set up by the extreme rapidity of fire also operated somewhat against accuracy, but it is understood that both these difficulties have now been overcome, and that the gun has been found to answer all requirements.

All is fair in love and war—or, in other words, during courtship and after marriage.

Give Cuticura the Care Of Your Skin

And watch that troublesome eruption disappear. Bathe with Cuticura Soap, dry and apply Cuticura Ointment. For eruptions, rashes, irritations, etc., they are wonderful. Nothing so insures a clear skin and good hair as making Cuticura your every-day toilet preparations.

Drury is Chosen Premier of Ontario

Toronto.—E. C. Drury is to be the next premier of Ontario, succeeding Sir William Hearst. Mr. Drury was the unanimous choice of the Farmers of Ontario and Labor representatives in the new legislature, at a joint conference at the U.F.O. headquarters.

It is understood that the meeting was very harmonious and that there was an indication of the two groups pulling well together in the house, though both the U.F.O. and Labor will retain their group feature to a considerable extent.

Premier-elect Drury said that the new government was practically completed, that all the portfolios had been allocated, and that the government would be ready on short notice to take over the reins from Sir William Hearst and his ministers.

The policy of the United Farmers so far as it has been definitely agreed upon is outlined in an address given by Mr. Drury after his selection. In this he stated that one of the first acts of the new government would be to carry out the mandate of the people of the province on prohibition, as declared in the recent referendum vote, and Mr. Drury expressed himself as in complete sympathy with this mandate. He pointed out that the U.F.O. had waged war on special privileges, and this policy would be continued, he said.

He intimated that the new government would not stand for any class legislation.

In his address, Mr. Drury said he realized that the bed upon which he had been placed is likely to have more thorns than feathers in it. "I do not, however, entertain any fears regarding this situation," he said. "It is true we may be lacking in experience, but the situation is not one which calls for the fine arts of the politician."

The new leader added: "It is too early to speak of our legislative program. We have not yet been called upon to form a government, and it would be unwise to anticipate. We can, however, lay down certain broad principles which must and should govern us in the matter. Our war in the past has been waged on special privilege."

"We are not at this time going to abandon the principle of justice and fair play which have actuated us in the past. If we are called to power we must stand for no class legislation of whatever kind. Our legislative program must be framed for the benefit of every just and honest and legitimate interest in the province. If in the carrying out of such a program the unjust and dishonest interests get in the way, so much the worse for the latter."

War on Illiteracy

An Americanization bill to wipe out illiteracy in the United States, was reported on favorably by the senate labor committee. The bill would appropriate \$12,500,000 a year.

"DANDERINE" PUTS BEAUTY-IN HAIR

Girls! A mass of long, thick, gleamy tresses

Let "Danderine" save your hair and double its beauty. You can have lots of long, thick, strong, lustrous hair. Don't let it stay lifeless, thin, scraggly or fading. Bring back its color, life and vitality. Get a 35-cent bottle of delightful "Danderine" at any drug or toilet counter to freshen your scalp; check dandruff and falling hair. Your hair needs this stimulating tonic; then its life, color, brightness and abundance will return—Hurry!

The Sugar Shortage

Licenses to Export Sugar Cancelled By Canadian Trade Commission

Ottawa.—No export licenses of sugar from Canada are being issued, and old contracts which called for the shipment of sugar to the United States have been cancelled by the Canadian trade commission. It was learned. Export of sugar along the border points, which has been permitted to some extent in the past, has also been stopped, despite the many hundreds of requests for sugar being received by the trade commission.

At the office of the commission it was stated that if care is exercised by the consumers, there is sufficient sugar in Canada for domestic use, providing there are no strikes or transportation tie-ups.

Canada is one of the best situated countries in the world in this respect, it was stated.

Held Prisoner by Ice

Aviators Will Try to Rescue Man Frozen In

Winnipeg.—To rescue a man frozen in the north country without supplies, Capt. Cuffe, late of the R.A.F., one of the local aviators, and J. D. Perrin have left by airplane. J. B. Titterell, a well-known geologist and consulting engineer for a mining company, who has been surveying holdings in the Rice Lake district, as a result of the early freeze up has been held prisoner in the north land.

The lake was so frozen round the edges that several attempts made to get boats in proved unsuccessful.

Hurrah! How's This

Cincinnati authority says corn dry up and lift out with fingers.

Hospital records show that every time you cut a corn you invite lock-jaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezone can be obtained at little cost from the drug store, but is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of freezone on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain. This drug is sticky, but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.

A Unique Move

Commercial Travellers to Use British Warships

London.—British commercial travellers and the representatives of business houses are to be permitted passage aboard every British warship leaving the country for abroad. This, according to Sir Hamar Greenwood, under-secretary for home affairs, who made the announcement before the association of British chambers of commerce, is "a move unique in the history of the empire."

Proportional Representation
Winnipeg.—A bill providing for proportional representation for Winnipeg will be introduced in the next session of the provincial legislature, it is stated. Winnipeg would be the only district affected, as the city constituencies are the only ones for which there are more than one member.

Italy Appeals to United States
London.—Diplomats here assert that another strong appeal has been addressed to the United States by Signor Tittoni, Italian foreign minister, regarding the Fiume situation. It is added that the British and French governments are using their good offices to ease the rather critical situation.

Turkish Question For N.w. Conference

Entente Representatives Are Persuaded U.S. Will Not Voluntarily Accept Mandate

Paris.—The entente representatives in the peace conference apparently are persuaded that the United States will not voluntarily accept any mandate in the Near East, and it now seems assured that the Turkish question will not be touched by the present peace conference, but will probably be taken up by another conference to be held within a few months.

There is much speculation as to where the conference for the division of Turkey is to be held. It will probably not be in Paris. The suggestion of Geneva has not met with great favor, as it is not regarded as a good place for a winter conference, and it is believed that Turkey must be disposed of before spring.

To Relieve Distress

Preparations Being Made in U.S. to Cope With Strike Situation

Washington.—The government, confronted with the refusal of the miners' organization to call off the strike of a half million soft coal workers, has moved swiftly to protect the people from great distress.

First of many steps to deal with a situation admittedly critical probably will be these:

"Ample police or other protection for miners willing to remain on the job as urged by President Wilson."

"Revival of the fuel administration, armed with full war-time powers to prevent hoarding and profiteering."

"Allocation and distribution of coal to homes, railroads and industries."

"Efforts to bring the strike to a speedy end through mediation."

"The government, however, will make no effort to bring about indictment of officers of the United Mine Workers of America, who called the strike, on charges of conspiracy to reduce production of a necessary product."

Sugar Rations to Candy-Makers

Washington.—Rationing of sugar to manufacturers of candy, soft drinks and the like is soon to be suggested by the sugar equalization board, a house war investigating committee was told by Herbert Hoover, former federal food administrator. This step by the board, Mr. Hoover said, resulted from the fact that "raw sugar has risen beyond the point where it can be bought advantageously for the housewife."

Germany May Not Hand Over Ships

Berlin.—The Deutsche Allgemeine Zeitung says semi-officially that the reply of the German government to the note from the supreme council at Paris, demanding the surrender of German ships sold to Holland during the war, will probably be in the negative. The note will declare that the government is unable to endorse the legal arguments of the entente that the sale of these ships, which are now in German waters, was invalid.

Melons Grown in the West

George Merrick, head of the Merrick-Anderson company, who for years before the war and ever since has been a most earnest advocate of greater production, is very proud of the fine muskmelons which he grew this year at Old England, near Selkirk. He believes that in years to come a very large proportion of the market gardening for the city of Winnipeg will be done in the light, warm, sandy soil in the region near the town of Selkirk, where conditions are very favorable. The picture shows samples of the melon crop of this season, said to be equal to those of Montreal.

Canada Wants Place On Governing Body

Alleged Evasion Of Immigration Law

Claim that Hutterites Get Into Canada By Automobiles

Winnipeg.—Finding it a difficult job getting into Manitoba from the United States by train, Hutterites, it is alleged, are trying to outwit the immigration authorities by entering in automobiles. Reports to this effect were submitted at a meeting of the central branch of the Great War Veterans' association, with a result that a resolution was unanimously passed calling the attention of the federal government to the matter and urging it to take immediate steps to see that the regulations prohibiting the entry of Hutterites into Manitoba were not evaded in what was described as this astute way.

To Solve Fiume Question

France and Britain Are Again Trying to Bring About Settlement of Problem

Paris.—Efforts of France and England are again being brought into play to bring about a solution of the Italian-American difficulties over the settlement of the Fiume problem, according to the Liberte.

The newspaper reports that the American opposition to the modified Italian proposals is unchanged and that the response of Secretary of State Lansing is in the negative.

Premier Clemenceau received Foreign Minister Tittoni.

To Withdraw British Troops

London.—Andrew Bonar Law, government leader in the House of Commons, announced that the government was arranging with France and Prince Feisal, son of the King of the Hedjaz, for the immediate withdrawal of the British troops from Syria and the assumption of the duties of occupation by the French and Arabs, pending the conclusion of the peace treaty.

Heavy Potato Loss in Manitoba

Winnipeg.—Manitoba has sustained a loss of about 2,800,000 bushels of potatoes, frozen in the ground, which at market prices today, \$1.25 per bushel, means a loss of \$3,500,000 and represents a loss of from 30 to 40 per cent. of the entire crop. Dealers say there will be a serious shortage in the province this winter.

Argentina to Hand Over Hun Ships

Buenos Ayres.—The six German merchant ships which took refuge in Argentine ports during the war will be delivered to the allies in good condition. This decision is the result of diplomatic negotiations extending over several months to determine the fate of the interned steamers.

Washington.—Canada has filed a formal protest against the proposed composition of the governing body of the international labor office to be established under the League of Nations. The point at issue is regarded by the Canadian delegation here as of the greatest moment. It involves the right of Canada, by reason of her industrial importance, to name one of the members of the governing body rather than to take her chance of election as one of the nations of lesser importance, from the industrial point of view.

The international labor office (which will be controlled by the governing body), forms part of the permanent organization created to further application of the labor principles embodied in the peace treaty.

Its governing body is to consist of 24 members. Twelve will represent the governments, six will be selected by the employers' delegates to the international labor conference, six by workers' delegates to the conference. Of the twelve government representatives, eight will be nominated by the members of the conference which are of chief industrial importance.

The remaining four will be nominated by the other government delegates to the congress. The governing body will consist of 24 members, comprising which eight nations are of industrial importance and therefore empowered each to name a representative on the governing body.

The organizing body of the labor conference has reported in favor of the following:

United States, Great Britain, France, Italy, Belgium, Japan, Switzerland and Spain.

If German delegates are admitted to the conference, Germany, by reason of her industrial importance, will be entitled to a seat on the governing body, and Spain being at the end of the list will cease to be numbered among the eight.

Now the position taken by Canada is that she should rank as one of the eight nations of "chief industrial importance." And to that end has deposited a protest. The Dominion government holds that she is entitled to be so regarded on the grounds:

(1) Of population.

(2) Of relative industrial importance.

When the council of the League of Nations convenes, and this is expected shortly, Canada's protest will be one of the first questions for education.

Navy Must Retain Strength

Beatty Says Nation Would Fall to the Ground Unless Sea Force Is Maintained

London.—Earl Beatty, the new first sea lord, speaking here, declared that while public economy was essential, our vast lines of communication were as important as before the war, and the navy was our insurance for maintaining them. The League of Nations was a pious hope for relieving us of some of that insurance, which he hoped might be fulfilled, but the navy made us into a strong man armed, and without it the Empire would fall to the ground.

SATISFYING RELIEF FROM LUMBAGO

Sloan's Liniment has the punch that relieves rheumatic twinges

This warmth-giving, congestion-scattering, circulation-stimulating remedy penetrates without rubbing right to the aching spot and brings quick relief, surely, cleanly. A wonderful help for external pains, sprains, strains, stiffness, headaches, lumbago, bruises.

Get your bottle today—costs little, means much. Ask your druggist for it by name. Keep it handy for the whole family. The big bottle is economy. 35c, 70c, \$1.40. Made in Canada.

by Hoo-jah-Ka-Bibby

The winter is coming and once more the bachelors are noticed storing up their coal and banking up their 2 by 4s preparing for another lonesome time. Little do they dream that their happy days are nearly ended for—next year is leap year and Batch—but wait a little and you'll see.

The other night we gathered some peculiar information by following the Bumpologist and listening to his forecasts. Art Todd was the first victim, and on feeling his eronium Bumpo remarked there was nothing in it and passed on to

The Jay Pee. Running his hands over his dome, the Prof. remarked that it was very smooth going, and went to see

Tom Ulph. Thumping at Toms skull Bumpo discovered several long ridges corresponding in length to a rolling pin. "family troubles" said he and went to look at

Frank Boomer. Owing to the luxuriant growth of fur on this fid, the Prof. had a time getting to bed-rock. However he did. "Quite a crop, but winter" says he, and passed on to

Doc Larder. "What's been" said the Prof. "I don't know whether this is your bump of intelligence or a bruise"—It turned out to be Does nose.

Wild D—M was next. "Cooties headed north, break in the weather" said the Bag, and went to look at

Oscar Johnson. On feeling this piece of ivory, the Ologist remarked that it was cracked and passed on to

Ye Ed "Lord" said the Prof.—(deleted by the editor) There were others, but space is nearly gone.

Some Freeze. Van the local representative of John D. had the gasoline tank freeze stiff. His only excuse is that this is summer and not winter gas.

Theres no accounting for some peoples taste. For instance, Charley B would insist on wearing a Baby comforter on his coat tails at the Halloween Ball.

Ghosts can be embarrassing. If you doubt it, ask Mr. Moth—he was cuddled by two at once.

With great excitement and with fire in his eye, the Rev. Mr. Wickenden announced on Monday morning that he "was going to marry Miss Houston" Upon extending congratulations, we found to our disappointment that he was only going to marry her to someone else.

Mrs Deadmarsh thinks sheep are awful foolish things. She was going to help one out of the house the other day with a well directed kick at the rear. When the kick was due to arrive, Mr Sheep wasnt there. The kick kept on going though, and as a result, Mrs Deadmarsh preffered standing to sitting for a few days and considerable repairs were necessary to the kitchen floor.

The following was intended for an earlier issue but the copy strayed.

The teacher's experiment of placing the responsibility of a Social entirely with the Girls of the Walking club was justified by results. The girls got up a program for Outdoor Sports followed by an entertainment in the Schoolroom.

The sports were greatly enjoyed by the youngsters but time would not allow of the paper chase being run. The girls Walking Club beat the boys in the Rounders game and the boys turned the tables in the Relay race. The entertainment brought out the fact that the children can sing very pleasingly and the G W C musical drill was a great success.

The boys 'talk' of getting up the next social and state they will knock the girls effort into a cocked hat.

The Mutual Improvement meetings commenced last Sunday, but weather and want of publicity was against the attendance. Those who did attend expressed the hope they would be continued thru the winter.

All are cordially invited, 2.30 to 4.30. First hour hymns and address, afterwards secular music and chats on News of the world.

(intended for last issue)

Well, Chautauqua has come and gone, and all we have to do now is to sit still and wait for next years.

Of course there are many arguments both for and against having another Chautauqua here next year but upon investigation we find that those who do not wish to see a return of the show-people, are the ones who did not attend the previous concerts. Certainly anyone who was present at the last series of concerts could not be anything else than satisfied with the class of entertainment.

It were superfluous here, to call any especial attention to any particular one of the performers or lecturers. Suffice it to say that each and every one filled the bill to capacity.

We might mention though that it was undoubtedly due to the heroic efforts of the supervisor, Miss Murgason, that Chautauqua went off here with such marked success, in spite of the inclemency of the weather, and a train wreck. Her continual good humor, ready wit and untiring energy lead several to comment that she must have kissed the Blarney stone.

The Committee nearly broke even, the citizens are well pleased and arrangements are almost completed for the return of Chautauqua here next year—heres hoping.

Australian Premier Says Empire Will Hang Together

A despatch to the London Daily Mail from Sydney says that in a speech at Brisbane, Premier Hughes said that when he was recently in South Africa, General Botha had said to him: "If you call to us across the ocean we shall come to you. We look upon you as the outpost of the Empire. You stand between us and that outer world of thousands of millions which hems us about. If you fall we fall; if we call you we know you will come."

Premier Hughes continued: "So it is with New Zealand and Australia. Those who touch us touch Canada. Those who touch Britain touch us."

Ministers denounce gambling, yet they keep right on boosting the matrimonial game.

Faint and Dizzy Spells. Weakness and Shortness of Breath.

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking, all-gone feeling, choking sensation, etc.

Many men and women become rundown and worn out when otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness. No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as **Miller's Heart and Nerve Pills**. Mrs. C. A. S. Drake, Paris, Ont., writes: "I have used on towards the second box of **Miller's Heart and Nerve Pills** and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When walking too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much." Price 50c. a box at all dealers or mailed direct on receipt of price by **The T. Milburn Co., Limited, Toronto, Ont.**

Growing on the Manitoba Agricultural College grounds are a number of selected native seedling plum trees. These trees were in full bearing this year, and their crop has demonstrated very clearly that plums of good size and quality can be grown in Manitoba. From 50 to 100 pounds of fruit have been taken from each tree.

Old age makes a specialty of discovering lost opportunities.

To Men Who Live Inactive Lives.
—Exercise in the open air is the best tonic for the stomach and system generally; but there are those who are compelled to follow sedentary occupations, and the inactivity tends to restrict the healthy action of the digestive organs and sickness follows. **Parmelee's Vegetable Pills** regulate the stomach and liver and restore healthy action. It is wise to have a packet of the pills always on hand.

Our idea of a hopeless liar is a person who says he never makes mistakes.

Minard's Liniment Cures Colds, &c.

Walked 95 Miles in One Day

One of the most remarkable pedestrians ever known is probably **Edward Payson Weston**, who walked in one day from Philadelphia to New York, a distance of ninety-five miles. He left the City Hall in Philadelphia at five minutes after midnight, and reached the City Hall in New York at 11.35 p.m. A year later he walked over the same route but he had walked forty years before, beating his own previous time by many hours, and going 1,300 miles in 24 days 20 hours. Of all the rivals an athlete has to face, the most difficult to overcome is his past self.

The price paid for a grade is high money.

Women Dive For Shells

The Japanese industry of making buttons, scarfpins, shirt studs, cuff links and the like from sea shells brought from the Indian Ocean, the Philippines and the South Sea Islands, has made mighty strides these last few years, says *Gas Logic*. Millions of the shells are gathered from the ocean bottom by women divers, who work without the aid of any diving apparatus whatever.

THE NERVOUS SCHOOL CHILD

Needs Rich, Red Blood to Regain Health and Strength

Many children start school in excellent health, but after a short time home work, examinations, hurried meals and crowded school rooms cause their blood to become weak and thin, their nerves over wrought and their color and spirits lost. It is a great mistake to let matters drift when boys and girls show symptoms of nervousness or weakness. They are almost sure to fall victims of St. Vitus dance, or drift into debility that leads to other troubles. Regular meals, out-door exercise and plenty of sleep are necessary to combat the nervous wear of school life. But it is still more important that parents should pay strict attention to the school child's blood supply. Keep his rich and red by giving Dr. Williams' Pink Pills according to directions and the boy or girl will be sturdy and fit for school. The value of Dr. Williams' Pink Pills in cases of this kind is shown by the statement of **Mrs. Pearl G. Harrington, Kingsville, Ont.**, who says: "I have often felt that I should write you and let you know what Dr. Williams' Pink Pills did for me. At the age of thirteen I was afflicted with St. Vitus Dance. The trouble became so severe that I had to be taken from school. I was given medical treatment but it did not help me, in fact I was steadily growing worse. Then a friend advised my mother to give me Dr. Williams' Pink Pills, which she did, with the happiest results, as the pills completely cured me and I was again able to take up my studies and attend school. Again about three years ago I was attacked with nervous prostration and once more took Dr. Williams' Pink Pills, and after using five boxes was fully restored. I cannot praise these pills too highly as I believe they will cure any case of St. Vitus dance, or restore anyone who is weak, nervous or run down. You can safely give Dr. Williams' Pink Pills to the most delicate child, or take them yourself with equally good results when you need a blood tonic. They are sold by all dealers in medicine or will be sent by mail, post paid, at 5 cents a box or six boxes for \$2.50 by **Dr. Williams' Medicine Co., Brooklyn, Ont.**

Habits are like porous plasters, easy to acquire and hard to get rid of.

CORNS? HAVE YOU ANY?
If so, you want to try Putnam's Corn Extractor; it is not a cheap acid salve, but a genuine 25c cure that does remove corns in twenty-four hours. Be sure and get Putnam's Extractor, 25c at all dealers.

Very Accommodating
"How did you get on?"
The sweet maiden breathed the words into her lover's manly ear as she met him in the passage. He had been "seeing father," and she wanted to know the result.
"Oh, your father is heartless!" said the young man indignantly. "I-I told him I could not live without you, and—"
"Yes, Yes!" impatiently. "What did he say?"
"He merely offered to pay my funeral expenses!"

What other men have done, you may do. Carlyle says: "He can who thinks he can." Emerson says, "No body can cheat you out of ultimate success but yourself."

British Strike Very Costly
The approximate cost of the recent railway strike to the British treasury was £10,000,000 sterling, according to an announcement made by the Chancellor of the Exchequer in the House of Commons. The Chancellor added that the publicity campaign against the strike cost the government more than £32,000 sterling.

Minard's Liniment Cures Diphtheria.

BIFF!
Stop joking Liver and Bowels with violent drugs, but take "Cascarets."

"Lynxamine" bile out of your system with calomel and other sickening purgatives is all wrong. Salts, Oil, and Cathartic Waters act by flooding the bowels with the digestive juices which are vital to the stomach. Cascarets are different. They act as a tonic to the bowel muscles, which is the only sensible way to relieve a bilious attack, a sour, acid stomach, or constipated bowels. There is no griping or inconvenience. You naturally return to regularity and cheerfulness. Cascarets cost very little, and they work while you sleep.

To Utilize Tidal Power
In view of the shortage of British coal for export purposes, it is reported that French scientists and industrialists are endeavoring to supply power by harnessing the tides. For several years French scientists have declared that this was no fantastic dream, and already considerable data on the subject have been collected. In order to apply these theories to the test of practice, a small scientific company has been formed to carry out experiments at Ploos-anach, on the Cotes du Nord.

or Strangles in stallions, brood mares, colts and all others is most destructive. The germ causing disease must be removed from the body of the animal. To prevent the trouble the same must be done.
SPOHN'S COMPOUND will do both—cure the sick and prevent those "exposed" from having the disease. Sold by your druggist or the manufacturers. **SPOHN MEDICAL CO., Mrs. J. Spohn, Ltd., U.S.A.**

Dollars saved by Bovril

Bovril used in the Kitchen means dollars saved in the Bank.
It makes nourishing hot dishes out of cold food which would not otherwise be eaten. But see that you get the real thing. If it is not in the Bovril bottle it is not Bovril. And it must be Bovril.

Novel Bolshevik Scheme

Tolstoy's Country House To Be Kept As A Public Memorial

The Bolshevik Government has a somewhat Gilbertian scheme for the disposal of Tolstoy's country house, Yasnaya Polyana. The property is nationalized, and is to be kept up as a public memorial of its late illustrious tenant. As, however, the greater part of the house was destroyed last year by Bolshevik brigades, the Commissary of Art has assigned 175,000 roubles to its reconstruction.

The Tolstoy family have been invited, on condition of becoming Government officials to rent their own property from the State and occupy the house!

Mothers Value This Oil.—Mothers who know how suddenly croup may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that there is no better preparation to be had for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

The Unkindest Cut
"It's four years now since he left me," said the deserted wife. "I remember it just as well as yesterday—how he stood at the door, holding it open till six flies got into the house." —Boston Transcript.

A flour mill with a daily capacity of 60,000 pounds recently began operations at Kaifeng, China. The machinery is of the latest American pattern.

O.N.O. Club Concert

Is Big Success

Needless to say, the Halloween concert and dance put on by the O. N. O. Girls club, proved to be a success from every standpoint.

A good number turned out for the affair and apart from the letting off of the fireworks in the Hall, there was nothing happened to mar the pleasure of a real good time.

The first part of the evening was taken up by the concert. There were songs, duets, recitations, instrumental pieces and Indian club swining, each and every one of which is worthy of special mention but pressure of space and time forbid this being made.

After the concert, the hall was cleared and the Games started. At first, there was the usual reluctance on any ones part to start the ball rolling, but eventually some of the more light-hearted got things going, and soon the fun waxed fast and furious. As before stated, the firework gang would have been more appreciated outside as in a Hall, where there are lots of girls, and lots of flimsy things easily set afire, besides the reek of gunpowder is not exactly a pleasant aroma. Every one stayed for the dance which followed and expressed themselves very well satisfied with the way things were carried off.

The girls wish to thank Mr. Moth who so kindly donated them the use of the hall, and the band, who donated the music for the first part of the dance.

Good for you girls, we take off our hats to you, and hope that you will not confine your efforts to Halloween concerts alone. There's lots of chances for you to stage similar affairs through the winter.
